

# AIR

Con le diverse combinazioni di finiture tra scocca, schiena ed anta, si creano innumerevoli e affascinanti contrasti cromatici. Orizzontale o verticale, aperto o chiuso dall'antina scorrevole, l'elemento Air lascia grande libertà progettuale.

With the different combinations of finishes between the body, the back and the door, countless and fascinating colour contrasts are created. Horizontal or vertical, open or closed by the sliding door, the Air element leaves great design freedom.
